COUNTY PIONEER LAID TO REST

James A. Colten, better known to his friends as Len Colten, was born to Mary and James J. Colten on July 21, 1884, in Crawford County.

He attended school in Grayling and while still a young lad, worked in the shingle mills located at Hedge Lake, now named Lake Margrethe.

In 1903, he was united in marriage to Harriet Dawson of West Branch, and to this union, two daughters were born. Mrs. Colten preceded him in death on March 23, 1916.

During the earlier years of his life, he was active in both business and civic affairs. About the first business he owned and operated was a bowling alley, located in what is now known as the Shogren building. During his many years following he sought and operated Colten's restaurant, located where Dad Larson now has a sporting goods store. He was also the proprietor of a lunch room and pool room adjoining in the building now occupied by Baringer's Men's shop, and in 1933 he purchased the Fischer Hotel and tavern business, now Smiggens, which he operated until his retirement in 1944.

The following years he entered into partnership with his brother George in a log raising operation called the Colten Log and Lumber Co., in which they bought all the marked logs which were floating on the river bottom from the head waters to Sharon. These were logs which were lost while floating down the river to the mills.

He spent his retirement years in Grayling during the summers and in Florida during the winters, until his death which occurred in Tampa, Florida on January 22, 1959.

Mr. Colten is survived by two daughters, Mrs. Maxine Trudeau and Mrs. Beulah Neafie, both of Lake Margrethe, Grayling, Michigan; also by four grandsons, Thomas E. Douglas of Grayling, James C. Trudeau of Tecumseh, Mich., and Richard Trudeau of Grayling; also by five great grandchildren and four brothers, Carl of Iruene, Alaska, Ralph of Grayling, George of Higgins Lake, and Samuel of Detroit, and one sister, Mrs. Mabel Roe of Pocoloma, California.

Those from out of town attending the funeral were Samuel Colten, Sr. of Detroit, and Holger Peterson of Lansing, Mich.

Services were held at 2 o'clock Wednesday, January 28, at the Sorenson Funeral Home, with the Rev. R. C. Puffer officiating. Interment was in Elmwood Cemetery, with Jerome Kessler, James West, Lawrence Hunter, Harry Sorenson, Larry Reich, Sr. and Wesley LaGrow serving as pallbearers.

Fred Bear Named To Crown 1959 Miss Michigan Winter Queen

Parade Set For 1:00 P. M. Sunday, Feb. 15th

Plans for the Grayling 34th Annual Winter Sports Carnival were moving into high gear this week, general chairman Eric Post reports as the time draws short prior to the big weekend on February 13, 14 and 15.

It was revealed by chairman Post this week that Fred Bear, president of Bear Archery Company of Grayling and inter-national known archer had been named to crown the 1959 Miss Michigan Winter Queen as the climax of the Carnival.

At this time, five Winter Queens other than the Grayling Queen have been entered in the competition. They are Caroline Ann Kaminiski of Rogers City; Pat May, Miss Sheridan Valley; Nancy Jacobson, Miss Kalkaska; Margie Godette, Miss Boyne City and Velva Burson of Wayne State University. State Certifies Local Man

Frank May, 305 Ogema Street Grayling, is among 94 Michigan men who have been certified by the Michigan Department of Health as qualified sewage treatment plant operators. The certificates are signed by Dr. E. Heustis, state health commissioner.

"These certificates," Dr. Heustis said in Lansing, "mean a great deal to these men, their home communities and to the entire state. They certify that the men are professionally competent to do a highly important job that protects the public health through efficient operation of an important public works."

These men are to be congratulated by all of us for the effort and time they have spent in gathering the knowledge and skills that have qualified them for certification."

Michigan law requires municipal sewage treatment plants to be operated by persons certified by the state health commissioner. To win certification, an operator must pass a written examination and rigid state health department standards of education and experience.

Certificates are classed A, B, C or according to the level of the operator's education and experience. Different examinations are given for each of the four classifications. The certificates permit a person to operate a class A, B, C or treatment plant. The plants are classed according to size, type and location.

There are now about 200 municipal sewage treatment plants in Michigan and all but seven are operated by certified persons. Seven is considered a normal number of vacancies because of transfers, deaths and other turnover.

With the certification of 94 more men, the state health department believes that for the first time since the certification program was started in 1954 municipalities will now be able to draw from several certified operators whenever a vacancy occurs.

Scout Is Friendly . . .

The fourth point of the Boy Scout Law reads, "A Scout is friendly. He is a friend to all and a brother to every other Scout."

Now, as the Boy Scouts of America celebrate their anniversary during Boy Scout Week, February 7-13, let us see how this friendliness is fostered.

Friendships form readily in the Cub Scout pack, Boy Scout troop, and Explorer unit as their programs promote democratic ways of living together.

The weekly neighborhood den meetings of the Cub Scouts who are eight, nine and ten years old are full of as they take on themes of American history, geography, natural science, and safety. At monthly pack meetings where they put on interesting demonstrations program features, the Cub Scouts meet and know parents of members of the other neighborhood dens.

The Boy Scouts, over eleven make friends as they patrol in the troop, elect their own boy leaders, plan their programs. These friendships are strengthened as they camp and hike together.

The new Exploring program for high school age men provides a series of social experiences that Explorers increase their skill in working and living with others.

World Scouting today in 67 nations finds 7,589,183 Scouts.

America's Scouts make friends with those of other lands at the world Scout jamborees usually held every four years. Several hundred American lads will camp together with about 12,000 others from all parts of the world at the Tenth World Jamboree in the Philippines July 17 to 26.

Through the World Friendship Fund of voluntary contributions since 1944, Boy Scouts of America have helped less fortunate brother Scouts of other lands. We congratulate the Boy Scouts on their 49th milestone.

Saturday evening a group of friends met at the home of Sam Rasmussen to help him celebrate his birthday anniversary. Pincelle was enjoyed and a delicious lunch served. From all reports everyone had a very nice time.

Mr. and Mrs. Charles David (Clara Bugby) of Flint spent the weekend here visiting Mrs. David's parents, Mr. and Mrs. E. E. Bugby. They were accompanied on their return by Miss Eva Mae Bugby, who will visit her sister for several days.

Grayling friends will be pleased to know that B. Trudeau of Saginaw, who carried off so many honors in the special skating race, is none other than Ben Trudeau, who spent his boyhood in Grayling. He is the son of Mr. and Mrs. Thomas Trudeau who owned and operated the bakery here years ago. The young man is a whiz on skates and won several honors at the Alpena carnival also.

Mr. and Mrs. Albert Madill of Frederic are happy over the arrival of a son, James Albert, born Sunday, February 3. He is quite a husky fellow, tipping the scales at 10 1/2 pounds.

Fire resulting from an explosion of their gasoline stove caused quite a little damage at the apartment of Capt. G. E. Murphy over Burk's garage. It so happened that firemen were holding their meeting on the lower floor of the building so that it was not necessary to turn in an alarm. The flames were quickly extinguished but had made so much headway within just a few minutes that the whole building might have been in grave danger had the firemen

not been so near at hand.

Mrs. Lorane Sparkes entertained her Contract club Saturday afternoon at luncheon. The guests were served on small tables scattered through the living rooms. Mrs. C. G. Clippert held the winning score at cards.

Word has been received from the Carl Sorenson family from California, who report they are having a wonderful time in the far west. It took the family eight days to make the trip and the only car trouble they experienced was a flat tire, which occurred on a mountainside. They are having very fine weather out there now.

Zoe Wells, whose fondest dreams are to be a full-fledged nurse, is back on the job as assistant nurse at Mercy Hospital. Since then it seems that the masculine portion of town residents just can't break bones rapidly enough.

Mrs. Mollie Bosworth is at Midland where she is assisting Miss Lottie Sias in her art shop for a couple of weeks.

Carl Johnson is spending a couple of weeks in Detroit and Grand Rapids on business.

Mr. and Mrs. George Willis (Marguerite Chamberlin) of Detroit and Mr. and Mrs. Alfred Hyde (Mildred Bunting) of Pontiac were among the snow train passengers last Sunday. They enjoyed visiting of friends and the thrills at the winter sports park.

Friends of Miss Clara Atkinson and Robert Sorenson will be pleased to hear of their marriage Sunday, January 12, at Gaylord. The Rev. Allen Schreier officiated. Mrs. Sorenson is the daughter of Mrs. Fred Tatro and is a graduate of Grayling High School of the class of 1935. Mr. Sorenson, who was a member of the same class, is a son of Mr. and Mrs. Carl Sorenson. toboggan riders. It races down the three-chute, half-mile-long slide at speeds varying from 140 to 160 miles an hour. Regulation toboggans ranging in length from four to ten feet, attain speeds of well over one hundred miles an hour on the Grayling slide. "Sal" rides the chute so fast it is necessary to slow her down with sand and sawdust toward the end. Still, she has never known an accident.

"I REMEMBER"
BY THE OLD TIMERS

From Mrs. Jeannette Turanlansky, Riverhead, N.Y.: I remember going to the corner grocery store with a pint jar and buying a "measure of sour cream" for my mother. Other times it would be a half pound of butter cut in large irregular chunks from a butter tub. There were sacks of chic peas, barley, lima beans and split peas standing on the bare wooden floor. The odor of freshly ground coffee always greeted you. But best of all was the fact that the grocer always said a special "hello" with a gum drop and knew every child by their first name.

There was always a penny spending money for my brother and I when we came home from school. Each penny was an adventure because there was so much to choose from behind the large glass showcase in the candy store. There were chocolate bunnies, 5 for a penny. There were barrels of wax with a sweet liquid inside. There were wax teeth—good for hours of fun. Boxes of thin slivers of licorice called "eats," always seemed enticing. Licorice whips always made the decision difficult. A yard of paper with small dots of candy on it often won out because it was so "shareable." Whatever the choice, it was always a big treat.

Here's how to comfort-test a Ford. Take six people—a daddy longlegs, a Mr. "five by five," any shape, any size. Put them in a Ford and watch what happens. First they can get in easier. Once inside, everyone (including the man in the middle) has a thickly padded seat for real comfort. There's more than enough room for legs, elbows, hips—and hats! Come in for a "people test"!

Suggested Ford retail prices are lowest of the best-selling three for all comparable models. With radio, heater, and automatic transmission, Fords are priced up to \$102.75 less than the major competition. Diamond Lustre Finish never needs waxing. The aluminum muffler normally lasts twice as long. Finally, Ford's beautiful proportions will command a higher price when you sell.

AMERICAN

Downtown Indianapolis

INDIANAPOLIS, INDIANA is a typically American city in a typically American state... the physical, political, economic and cultural Capital of a great commonwealth... a city proud and grateful for its heritage, traditions, ambitions and confident of a glowing destiny.

The first settlers came in the spring of 1820 and located near the confluence of Fall Creek and White River. Later, others followed and the settlement began to grow. The first Indiana Assembly gave to Governor Jonathan Jennings and a special commission powers to select a permanent site for a state capital. They wanted a site near the center of the state territory and the settlement at the confluence of White River and Fall Creek was selected. The name Indianapolis (INDIANA plus POLIS, Greek for "city") was chosen and the name year Alexander Ralston, who assisted in laying out the

city of Washington, D.C., was expected to lay out this new city on the western frontier. Today, less than a century and a half later, Indianapolis is a fast growing metropolis of 550,000 persons - a highly diversified and vitally important industrial city in the midst of a vast rich agricultural area. Things to see in Indianapolis include: Central Church, famed as the birthplace of the "Hoosier" basketball team; James Whitcomb Riley's home; President Harrison Memorial Home and the Scottish Rite Cathedral, a masterpiece of Old World architecture.

From here he went to Kalkaska to visit his parents.
The Hek-kai-dek-a girls entertained their gentlemen friends with a sleighride to the John Failing farm home in Beaver Creek Monday evening, instead of holding their regular meeting. The most important event of the evening was a chicken dinner served at 10:30. They departed for their homes amid song and laughter. Mrs. Esbern Olson and Mrs. E. R. Woodburn acted as chaperones.

Last Monday Mayor Hanson and Peter Brown made an inspection of the hydrants in the city and found the one at the school house and the one on Michigan Avenue in front of Salling, Hanson Co.'s store to be frozen. It required considerable effort to thaw out the latter hydrant—a fire had to be built around it for several hours. This same hydrant gave trouble last winter.
For some time the class of 1914 have been planning and preparing for the biggest event of their Junior year, the "Junior Hop" and on Friday evening they gave a party at the opera house that far surpassed their fondest hopes. This night might be justly proud of themselves as royal entertainers. The members of the class are as follows: Helen Bauman, president; Bernadette Cassidy, vice-president; Lila Cassidy, treasurer; Elsie Salling, Edith Love, Anna Walston, Annah Merriman, Robert Robin, Matilda Foley, Louis Joseph, Mildred Bunting and Altha Nielsen.

This office has just installed some new printing machinery, and more will be coming soon.
The first annual ball and banquet given by the members of the Independent Order of Odd Fellows was held at Odd Fellows Temple last Tuesday evening. It was a pleasant closing party of

Grayling's social season. A. M. Lewis and Co. are enlarging their store. The change will enlarge their sales room and prescription department and give them more light.

BOY SCOUTS OF AMERICA

40th ANNIVERSARY 1959

FOR GOD AND MY COUNTRY
OFFICIAL BOY SCOUT WEEK POSTER

The nation's 4,780,000 Cub Scouts, Boy Scouts, Explorers, and adult leaders observe Boy Scout Week, February 7 to 13, by launching the fourth and final year of the "Onward for God and My Country" program. The 40th anniversary emphasis is "A Scout is friendly." Through their World Friendship Fund of voluntary contributions the Boy Scouts of America have helped Scouts in 48 other nations.

America will be represented by several hundred Scouts at the Tenth World Scout Jamboree next July 17-28 in Makiling National Park near Manila in the Philippine Islands. During Boy Scout Week, Scouts will go to work to successfully carry out projects in traffic, outdoor, and home safety in last year's Safety-Good Turn.

Crawford County, driving 12,000 miles a year and getting 15 miles to the gallon, the increase would be about \$12 a year. On the basis of current car registrations locally, it adds up to \$21,000 a year.

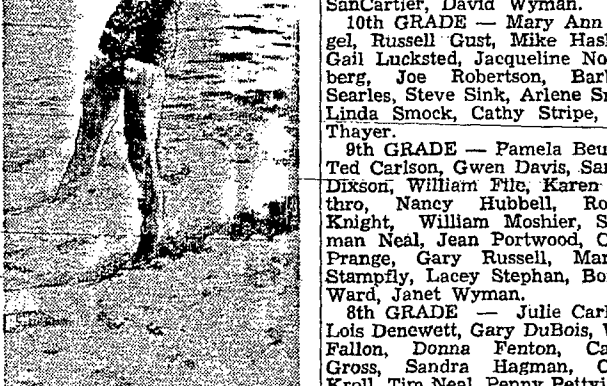

For car use at the rate of 20,000 miles a year and 15 miles per gallon, it would cost \$20 a year more than at present.

Since July 1, 1956, payments to the highway fund have been at the rate of 1 cent per gallon. In addition, there has been a tax on tires and other equipment.

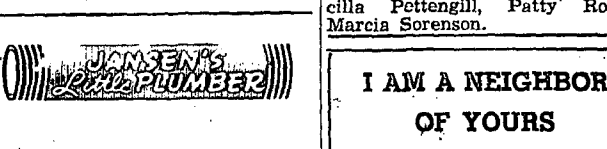

The objections to the Government's plan to raise the ante have been loud and quick. They have come from all directions, including auto manufacturers, farmers, bus operators, the oil industry and car fleet owners.

Charges of unwarranted diversion of receipts from the highway trust fund have been lodged, also by the Highway Users Conference representing trucking organizations. It claims that \$805 million of money belonging to the road program has been taken out and used for other purposes, although it had been specifically earmarked.

Despite increasing driving costs, car usage in Crawford County has been on the rise. Gross receipts in the local gas stations were at the high figure of \$1,277,000 in the last fiscal year.

son 3 and Frank Weaver 1.

On Wednesday night at Frederic, the undefeated girls team with a string of 5 conference wins in a row entertained the Ellsworth girls.

The Frederic girls edged out Ellsworth by the narrow margin of 18 to 16 with the outcome in doubt 'til the final

seconds. Frederic took a 5 to 4 first period lead only to see the Ellsworth girls swarm into a 8 to 7 intermission bulge. At the end of the third quarter the score was all tied at 16. Frederic hit for 5 points to the visitors 3 in the final period. Evans with 8 was high for Ellsworth. Carol Mayer with 12 was high for Frederic with Nellie Armstrong adding 4 and Yvonne Weaver 2. The Frederic girls with 3 games to go need only two more wins to at least gain a conference co-championship. Three straight wins would give them undisputed championship and an undefeated season.

In the preliminary game Wednesday night, the Frederic Junior High team came up with a rousing 35 to 28 victory. Each team scored 8 points in the first period but Frederic moved out to an 18 to 16 halftime lead. Ellsworth came back with 10 points to Frederic's 8 in the third period to leave the score knotted at 26 all as the final quarter began. Frederic hit for 9 points while holding Ellsworth to a one field goal in the last period to win. Ed Weaver with 12 and John White with 10 were in the double figures for Frederic. Fred Wilson added 8, John Cross and Mike Auld shot. Elzingar with 11 was high for Ellsworth.

FOR AND ABOUT TEENAGERS

On The Subject Of Going "Steady"

A modern-day development of great concern to parents is the fact that more and more teenagers are "going steady" at much too early an age.

The problem of what should be done about it is a complex one for parents, particularly if the "steady" selected by their child or daughter comes well recommended as far as background, upbringing and other considerations are concerned. Parents have little hesitancy to act when they believe their children are keeping the wrong company, yet they hate to "interfere" or take any kind

of action when their children are seeing "too much" of the "right" type of boy or girl.

There is nothing unusual about high school seniors "going steady." They have been doing so for decades. But grade school children, those who have just reached their teens, have no business going "steady" to the exclusion of normal associations with children of their own age and sex.

Many a teenager discovers for himself that going steady often has great disadvantages. If you find a new friend, the "steady"

must like this new friend as well as you do, or trouble results. If the steady prefers dancing when you would like to go to a movie, somebody has to give in. If the boys are planning a camping trip or some such event, you have to check with the steady to see if she has any plans. A big ball game conflicts with a social event that is a "must" where the steady is concerned. Such examples are practically endless.

Practically every teenager has a favorite boy or girl friend. And this is as it should be, for they like to "date" and be with someone who enjoys the same type of sports and recreational activities. It is when two teenagers become so "steady" that they allow their activities and their circle of friends to grow smaller and smaller that the situation is getting out of hand. The time for this kind of "going steady" is when one thinks they have found the person, the "one" and the early teens is much too soon for such a discovery.

If you have a teenage problem you want to discuss, or an observation to make, address your letter to FOR AND ABOUT TEENAGERS, NATIONAL FRANKFORT, KY.

No Town Is An Island

No community can live alone and like it. Economically, socially and culturally, each community is tied closely with its neighbors. Its school athletic program is dependent on friendly relationships with other towns.

This same idea extends to economic development. Areas are in keen competition for business and industry. What helps one community is helpful to all other towns and areas in the vicinity.

If one town is to have a commercial center, it has a great interest in the surrounding area. It may be that the area cannot prosper if the town is neglected. The town must obtain the merchandise it needs if the business center is to be a success.

If a nearby community has an opportunity of obtaining a new industry, it is to the town's advantage to have the new manufacturing operation locate nearby. The benefits will spread beyond the town in which the industry is located.

If your town does not have a particular industry, it will be to your advantage to have a nearby community with different industrial advantages in obtaining the industry.

Industrial development does not permit of isolation. It has been illustrated many times that how well an area fares in obtaining new industry depends to a large extent on the cooperation given by the communities within the area. The prosperity of each community is tied closely with the general well-being of the area.

A healthy condition, but it is most effective when tempered with a spirit of cooperation between communities of the area.
